

# George Veropoulos

ID: A00768180 | Date of birth: 31/05/1996 | Place of birth: Athens, Greece | Nationality: Greek | Sex: Male |  
Email: [georgeveropoulos96@gmail.com](mailto:georgeveropoulos96@gmail.com) | Website: <https://www.georgeveropoulos.com/> | Address: Spain (Home)

## WORK EXPERIENCE

 **SOLERA HOLDINGS, LLC.** – SEVILLE, SPAIN

**QA ENGINEER** – 28/10/2023 – CURRENT

- Designed and improved in-house WebUI automation frameworks using Selenium, Selenide, TestNG, JUnit and Playwright for scalable and maintainable test execution.
- Developed custom API automation frameworks to enable seamless data migration from TestRail into Grafana dashboards for real-time test analytics and traceability.
- Maintained and optimized suites of 1,000+ automated test cases, ensuring high reliability, performance, and minimal flakiness across environments.
- Led implementation of cross-browser and parallel test execution strategies to reduce regression cycle time.
- Integrated automation into CI/CD pipelines (Jenkins) for continuous feedback and deployment readiness.
- Created internal utility tools and framework extensions to improve team productivity.
- Built custom integrations between automation frameworks and third-party tools such as TestRail, AWS S3, and ReportPortal to streamline reporting, storage, and traceability.
- Contributed to test strategy, code reviews, and onboarding of QA automation best practices across teams.

 **HELLENIC ARMY ACADEMY** – ATHENS, GREECE

**IT SUPPORT SPECIALIST** – 03/03/2022 – 18/10/2022

- Provided technical support to end users, resolving hardware, software, and network-related issues.
- Maintained and monitored internal FTP servers and messaging applications to ensure reliable data transfer and communication.
- Performed regular updates and content management tasks on websites.
- Installed and configured network infrastructure components, including switches, routers, and access points, to improve overall network stability and performance.
- Carried out routine maintenance on employee workstations, ensuring proper operation and software compliance.
- Supported installation, configuration, and ongoing maintenance of physical and virtual servers.
- Assisted in planning and implementing improvements to the internal network grid.

 **ORFEAS ELEFThERIOU** – ATHENS, GREECE

**LEVEL DESIGNER** – 2020 – 2020

Designed most of the levels for the Steam game Mark One
